RE: Special Use Permit – Project Narrative – Parcel# 040-003265

Dear Mrs. Shields:

Please review the following brief project narrative outlining the activities at the above referenced parcel number as required by the City of Grove City.

The proposed AT&T telecommunications compound consists of a 150' tall monopole tower with an 11'-5"x20'-0"x10'-0 high industrialized unit at grade level within a 90'-0"x90'-0" chain link fenced gravel compound.

Please refer to the following table for additional project narrative:

Zoning Classification	IND-2
Business Services	AT&T Telecommunications Compound (Proposed) Heavy Industry Facility (Existing)
Hours of Operation	24/7 (AT&T)
# of Employees	0 (One service tech approximately once a month)
Nature/Volume of Delivery	None
Traffic Circulation	One vehicle approximately once a month
Noise	The generator is cycled once a week for 20 minutes and emits 68.6 dBA at a distance of 23' from the unit. At 150' (to the property line) it diminishes to 54 dBA or less.
Glare	None
Odor	None
Fumes	None
Vibration	None

Storm Water	None
Public Interest?	Increase in cellular coverage and quality
Injurious to Nearby Properties?	The telecommunications compound is protected by an 8' tall chain link fence w/ (3) strands barbed wire. The tower itself is designed to TIA-222-G & 2011 OBC standards and meets the setback requirements.
Encourage the Development of a Blighted Influence?	It should not encourage the development of a blighted influence, as no other towers will be required within its vicinity.
Will telecommunications compound be contrary to any program of neighborhood conservation?	No. Aside from aesthetic reasons from the tower being visible, the telecommunications compound will not produce an adverse effect on any neighborhood conservation that may exist within the surrounding area.
Will telecommunications compound be in harmony with existing or intended character of the district and nearby affected districts and not change the essential character of the districts?	The telecommunications compound does not change the intended character of the district as it is located with an IND-2 zoned property, which is allowable under a special use permit. The telecommunications compound is primarily surrounded by non-residential zoned districts, and railroad tracks, with the nearest residential district being 552' away to the west of tower location.
Will telecommunications compound adversely affect the use of adjacent properties?	The telecommunications compound will not affect the use of the adjacent properties.
Will telecommunications compound be served adequately by public facilities and services such as, but not limited to, roads, police and fire protection, storm water facilities, water, sanitary sewer, and school?	The telecommunications compound only requires telephone and electric and will not place any further demand on public services.
Will telecommunications compound impose a traffic impact upon the public right-of-way significantly different from that anticipated from permitted	No. The telecommunications compound is designed to have zero occupant load and one service tech will visit the site approximately once a month. It will not impact the right-of-way.

uses of the district?	
Will telecommunications compound be in accordance with the general and specific objectives, and the purpose and intent of this Zoning Code and the Land Use Plan and any other plans and ordinances of the city?	The telecommunications compound is allowable within an IND-2 district. The site has been designed as such to occupy the minimum amount of land space and all building setbacks have been met.
Will telecommunications compound comply with the applicable specific provisions and standards of this code?	The telecommunications compound complies with applicable specific provisions and standards of this code.
Will telecommunications compound be found to meet the definition and intent of a use specifically listed as a special use in the district in which it is proposed to be located?	The telecommunications compound is located in an IND-2 district; in which antenna towers are permitted with a Special Use Permit.

Planning & Zoning

Ms. Shields,

Please review the following in response to your review letter dated June 16, 2014.

1. *Property lines shown on all plan sheets should be verified and accurate. Setbacks should be adjusted as necessary with updated property boundaries.*
 - The property has been surveyed since the previous submittal so the new drawings are accurate.
2. *The distance to the nearest residential structure should be noted. Per section 1137.15(d)(4), any new antenna tower shall not be located closer than two times the height of the tower from any existing residential structure within the city.*
 - The proposed 150' tower is 300' from the closest residential structure. See Sheet C-2.
3. *Because the tower exceeds 100' in height, a second row of evergreen trees must be located within 25' of the fencing, and a row of deciduous trees at least 1.5' caliper spaced not more than 25' apart within 10' of the first row of evergreen trees/shrubs.*
 - Appropriate landscaping has been added where existing woods does not provide adequate cover.
4. *Plans should indicate if a light will be installed at the site to illuminate the base of the tower or fenced area to discourage vandalism, dumping, or loitering.*
 - The Fibrebond building comes with an exterior 180 degree motion activated twin head LED bronze floodlight.

Tower Notes:

1. Tower is designed per TIA-222-G, "Structural Standard for Antenna Supporting Structures and Antennas," for the following loading conditions:
 90 mph 3-second gust basic wind speed with no ice
 40 mph 3-second gust basic wind speed with 3/4 inch basic ice thickness
 Structure Class: II
 Exposure Category: C
 Topographic Category: 1
2. Tower design loading is assumed to be based on site-specific data and must be verified by others prior to installation.
3. Tower design includes the antennas, dishes, and/or lines listed in the appurtenance loading tables on sheet 2.
4. Antenna mounting pipes may need to be field cut to match the lengths listed in the appurtenance loading tables on sheet 2.
5. Tower member design does not include stresses due to erection since erection equipment and procedures are unknown. Tower installation shall be performed by competent and qualified erectors in accordance with TIA-222-G and OSHA standards and all applicable building codes.
6. Field connections shall be bolted. No field welds shall be allowed unless otherwise noted.
7. Structural bolts shall conform to ASTM A325, except for 1/2 inch diameter and smaller bolts, which shall conform to ASTM A449 or SAE J429 Grade 5.
8. Structural steel and connection bolts shall be galvanized after fabrication in accordance with TIA-222-G.
9. All high strength bolts shall be tightened to a "snug tight" condition as defined in the November 13, 1985, AISC "Specification for Structural Joints Using ASTM A325 or A490 Bolts."
10. Tower shall be marked and lighted in conformance with local building codes, FAA regulations, and TIA-222-G.
11. Tower shall be grounded in conformance with local building codes and TIA-222-G.
12. Allowable tolerance on as-built tower steel height is plus 1% or minus 1/2%.
13. Maintenance and inspection shall be performed over the life of the structure in accordance with TIA-222-G.
14. Material specifications:
 NTP 18-Sided Pole - ASTM A572 Grade 65
 Pole Flange - ASTM A572 Grade 50
 Pole Porthole Rim - ASTM A572 Grade 65
15. A jacking nut is placed near the top of each section which will have another section placed on top. The distance from this top jacking nut to the bottom of the next section must not exceed the value given in the column labeled "Maximum Distance to Top Jacking Nut." Jacking may be required to achieve the proper overlap.
16. The horizontal distance between the vertical centerlines at any two elevations shall not exceed 0.25 percent of the vertical distance between the two elevations. Measure early in the morning before the sunward side of the pole expands.
17. Sections must be erected with the 0 degree azimuth lined up to ensure proper fit.
18. Remove anchor bolt template before erecting pole. Non-shrink grout may be placed under base flange after leveling pole. Drain holes must be provided if grouting.
19. Concrete contractor shall be responsible for properly aligning anchor bolts and materials before and after placing concrete, regardless of whether an anchor bolt template is provided.

Foundation Notes

1. This foundation has been designed for the following reactions.
 Shear: 27.0 kips
 Moment: 3248.8 ft-kips
 Weight: 36.8 kips
2. Foundation is designed per geotechnical report dated 01/03/2013, by G2 Consulting Group, LLC, project number 120627.
3. A field inspection shall be performed in order to verify that the actual site soil parameters meet or exceed the assumed soil parameters and that the depth of standard foundations are adequate based on the frost penetration and groundwater depth. Local frost depth must be no deeper than the bottom of the base foundation.
4. Reinforcement shall be deformed and conform to the requirements of ASTM A615 Grade 60 unless otherwise noted. Splices in reinforcement shall not be allowed unless otherwise noted.
5. Welding is prohibited on reinforcing steel and anchorage.
6. Structural backfill must be compacted in 12" loose lifts to a 97% of maximum dry density at optimum moisture content in accordance with ASTM D698. Backfill must be clean and free of organic and frozen soils and foreign materials. Fill should be compacted at water content within 2 percent of optimum.
7. Foundation designs assume level ground at tower site.
8. Loose material shall be removed from bottom of excavation prior to concrete placement.
9. Concrete cover from exposed surface of concrete to surface of reinforcement shall not be less than 3".
10. Concrete and reinforcement installation must conform to ACI 318, "Building Code Requirements for Structural Concrete."
11. Concrete shall develop a minimum compressive strength of 4000 psi in 28 days.
12. Concrete shall be placed as soon as practical after excavating to avoid disturbance of bearing and side wall surfaces.
13. Concrete contractor shall be responsible for properly aligning anchor bolts and materials before and after placing concrete, regardless of whether an anchor bolt template is provided.
14. Positive drainage shall be maintained during construction and throughout the life of the facility to minimize the potential for surface water infiltration.
15. It shall be the contractor's responsibility to locate and prevent damage to any existing underground utilities, foundations or other buried objects that might be damaged or interfered with during construction of the foundation.
16. Groundwater was encountered at 15 feet bgs during the geotechnical investigation.
17. Temporary steel casing and/or drilling slurry will likely be required for installation of the drilled pier foundation. Permanent casing on drilled pier may not be used.
18. Concrete shall be placed by tremie if drilling slurry is used or if there is more than 1 inch of water at the bottom of the excavation.
19. Construction & Installation methods shall be in accordance with the geotechnical report.

LIMITED WARRANTY DEED

THIS LIMITED WARRANTY DEED is made as of February 28, 2005 (the "Effective Date"), between 3M Company, a Delaware corporation formerly known as Minnesota Mining and Manufacturing Company (the "Grantor"), and Rubex Realty, Inc., an Ohio corporation (the "Grantee"). Grantee's tax mailing address shall be c/o Chemence, Inc., 185 Bluegrass Valley Parkway, Alpharetta, Georgia 30005.

WITNESSETH, that the Grantor, for a valuable consideration paid by the Grantee, receipt of which is acknowledged, hereby Gives, Grants, Bargains, Sells and Conveys unto the Grantee and its heirs, successors and assigns, in fee simple, lands (the "Premises") situated in Grove City, Franklin County, Ohio, and legally described on the Exhibit A attached hereto and incorporated herein. The Premises were conveyed to Grantor by deed dated as of JANUARY 3rd, 1979, and recorded at Book 3703, Page 141, Franklin County Recorder's Office.

This is a Limited Warranty Deed pursuant to Ohio Revised Code Sections 5302.07-08.

TO HAVE AND TO HOLD the above granted and bargained Premises and all privileges and appurtenances thereunto belonging, unto the Grantee and its heirs, successors and assigns forever.

AND THE GRANTOR covenants with the Grantee and its successors and assigns that, with the exception of those matters described on the Exhibit B attached hereto and incorporated herein, at and until the unsealing of these presents, Grantor is well seized of the Premises, as good and indefeasible estate in fee simple, and has good right to bargain and sell the same in manner and form as above written, that the same is free from all encumbrances whatsoever except restrictions, conditions, reservations, licenses, easements, zoning ordinances, if any, taxes and assessments for the current half of the taxable year and thereafter, and any leases in existence as of the Effective Date and that Grantor will Warrant and Defend said Premises, with the appurtenances thereunto belonging, to the said Grantee, its successors and assigns, against all lawful claims and demands by, through or under Grantor and no other.

IN TESTIMONY WHEREOF, the Grantor has caused this deed to be executed by the undersigned pursuant to authority duly given, on the Effective Date.

Beginning at a point at the Northeastly corner of said Second Parcel in the center line of Grove City Pike; thence South 00 deg. 39' West, along the East line of said Second Parcel, a distance of 576.43 feet to an iron pin, said iron pin being North 00 deg. 39' East, a distance of 582.98 feet from the Southeast corner of said Second Parcel and across Second Parcel, a distance of 186.86 feet to an iron pin in the West line of said Second Parcel; thence North 00 deg. 38' 30" East, along the West line of said Second Parcel, a distance of 575.42 feet passing an iron pin on line at 555.42 feet to a point at the Northwest corner of the Second Parcel in the center line of Grove City Pike; thence South 89 deg. 18' 30" East along the North line of said Second Parcel and the center line of Grove City Pike, a distance of 186.90 feet to the place of beginning, containing 2.741 acres of land.

Parcel No. 2 - Tract 1 - PPN 040-3260

Situated in the Township of Jackson, County of Franklin, State of Ohio, and being 9.440 acres out of the 19.72 acre tract conveyed to Oscar and Grant Hoffman by deed recorded in Book 1060, Page 617 of Franklin County Records, and being more particularly described as follows:

0031-F
ALLOF
(040)
3260

Beginning at an iron pin in the West right of way line of the Baltimore and Ohio Railroad and an East line of said 19.72 acre tract, said beginning iron pin being in a Westerly projection of the centerline of Sunshine Place and bearing North 33 deg. 12' East, along said right of way line and said East line a distance of 607.38 feet to said iron pin at said Southeast corner; thence North 86 deg. 35' West along the South line of said 19.72 acre tract a distance of 763.41 feet to an iron pin; thence North 3 deg. 21' 30" East along a West line of said 19.72 acre tract a distance of 338.40 feet to a point; thence South 66 deg. 36' 50" East along a line of said 19.72 acre tract a distance of 373.22 feet to an iron pin; thence North 3 deg. 04' 35" East along a line of said 19.72 acre tract a distance of 186.91 feet to an iron pin; thence South 86 deg. 43' 10" East across said 19.72 acre tract and in a Westerly projection of the centerline of Sunshine Place a distance of 693.34 feet to the place of beginning, containing 9.440 acre of land.

Parcel No. 3 - PPN 040-3265

Situated in the Township of Jackson, County of Franklin, State of Ohio, and part of Survey No. 1383, Virginia Military Lands, also being part of that certain tract as conveyed by Harvey O. Yoder, et al, to Knowlton Thomas, et al, as the same is shown recorded in Book 1210, Page 556 of Franklin County Records, and being more particularly described as follows:

0031-F
ALLOF
(040)
3265

Beginning at an iron pin at the intersection of the Westerly right of way line of the Baltimore and Ohio Railroad with the Northerly line of the aforementioned tract conveyed to Knowlton Thomas, et al, same iron pin being the Northeastly corner of said tract; thence from said beginning point South 33 deg. 51' West along the Westerly right of way line of the Baltimore and Ohio Railroad and along the Easterly line of said tract conveyed to Knowlton Thomas, et al, a distance of 935.60 feet to an iron pin in said right of way line; thence North 85 deg. 54' West parallel to the Northerly line of the aforementioned tract, a distance of 308.50 feet to an iron pin in the Westerly line of said tract; thence North 4 deg. 43' East along the Westerly line of the aforesaid tract conveyed to Knowlton Thomas, et al, a distance of 812.34 feet to an iron pin at the Northwestly corner of said tract conveyed to Knowlton Thomas, et al; thence South 85 deg. 54' East along the Northerly line of the aforesaid tract, a distance of 764.02 feet to the point of beginning, containing 10 acres of land.

Parcel No. 4 - PPN 040-3267

Situated in the Township of Jackson, County of Franklin, State of Ohio, and being part of Survey

No. 1383, Virginia Military Lands, also being part of that certain First Parcel and part of that certain Second Parcel as conveyed to Arthur E. Essman and Isabelle E. Essman, as the same is shown recorded in Book 1832, Page 285 of Franklin County Records, and being more particularly described as follows:

Beginning at an iron pin at the Southwesterly corner of the aforementioned First Parcel shown recorded in Book 1832, Page 285 of Franklin County Records; thence from said point of beginning North 00 deg. 38' East along the Westerly line of said First Parcel a distance of 582.98 feet to an iron pin; thence South 89 deg. 00' East, parallel to the Southerly line of the aforementioned First Parcel and of the aforementioned Second Parcel and across said First Parcel and said Second Parcel, a distance of 373.72 feet to an iron pin in the Easterly line of said Second Parcel; thence South 00 deg. 39' West, along the Easterly line of said Second Parcel, and along the Westerly line of a 3.24 acre tract owned by Oscar and Grant Hoffman, said 3.24 acre tract being the premises retained by said Oscar and Grant Hoffman out of a 19.72 acre tract conveyed to them by deed recorded in Book 1060, Page 617 of Franklin County Records, a distance of 582.98 feet to an iron pin at the Southeasterly corner of the aforementioned Second Parcel; thence North 89 deg. 00' West, along the Southerly line of said Second Parcel and along the Southerly line of said First Parcel, and along the Northerly line of a tract conveyed to the Minnesota Mining and Manufacturing Company by Oscar and Grant Hoffman by deed recorded in Book 2023, Page 422 of Franklin County Records, a distance of 373.60 feet to the point of beginning, containing 5 acres of land.

Parcel No. 5 - PPN 040-3269

Situated in the Township of Jackson, County of Franklin, State of Ohio, and 6.202 acres out of the 19.72 acre tract conveyed to Oscar and Grant Hoffman by deed recorded in Book 1060, Page 617 of Franklin County Records, and being more particularly described as follows:

Beginning at an iron pin in the West right of way line of the Baltimore and Ohio Railroad and an East line of said 19.72 acre tract, said beginning iron pin being in a Westerly projection of the centerline of Sunshine Place and the Northeasterly corner of a 9.440 acre tract; thence from said beginning iron pin North 86 deg. 43' 10" West along said centerline projection and along the North line of said 9.440 acre tract a distance of 525.68 feet to an iron pin; thence North 3 deg. 04' 35" East a distance of 414.51 feet to a point; thence South 87 deg. 11' East along a line of said 19.72 acre tract and the projection thereof and along the South line of cemetery land and a projection thereof a distance of 769.12 feet to a steel fence post at a corner of said 19.72 acre tract, passing the center of a concrete post at 22.50 feet; thence South 33 deg. 10' West along the Westerly line of said Baltimore and Ohio Railroad and along a line of said 19.72 acre tract a distance of 485.61 feet to the place of beginning, containing 6.202 acres of land.

Parcel No. 6 - PPN 040-3263

In the case of underground services, the Company is hereby granted the right and easement to install the necessary service facilities, which shall remain the property of the Company, from its distribution feeder lines, in such location or locations as may be necessary to serve with electric energy the building or buildings, existing or to be constructed on the subject property or lots.

If at any time the Company is required by the State Highway Department or any other governmental authority having control over said highway to relocate any or all of the facilities of said line, then the Company may and is hereby granted the right to relocate said facilities along the highway as it now exists or may hereafter exist.

Said easement includes the right to trim any trees or shrubbery which may hereafter interfere with the construction, reconstruction, operation and/or maintenance of said line, within the limits of the easement and within the limits of a strip of land five feet in width on each side, adjacent and parallel to the easement and to trim or cut, any trees or shrubbery that now interfere with the construction or reconstruction of said line.

The Company hereby agrees to pay for damages to the stock, crops, fences, or structures of the Grantor(s), done by the Company or its employees while engaged in the construction or maintenance of said transmission line.

The Company shall have the right of ingress to and egress from the site occupied or to be occupied by said line and appurtenances, and the right to do any and all things necessary, proper or incidental to the successful operation and maintenance thereof. It is specially provided, however, that the facilities of said lines shall be so located as not to interfere with the undersigned's ingress to and egress from said property, and the Grantor(s) shall have the right to use said right-of-way and easement for purposes not inconsistent with Grantee's full enjoyment of the rights hereby granted.
