## 2. Analysis

The applicant is proposing to split 1.155 acres from an existing 77.953-acre lot. The parcel to be created is located within Subarea B of the Beulah Park development, located east of Lincoln Avenue, between Cleveland Avenue and Columbus Street. This is one of 10 disconnected portions of a single parcel. The lot that would be created is already physically and legally bounded as the remainder of the plat approved by C-56-19 and shown on the Beulah Park Roadway Phase I development plan approved with CR-34-18. This lot split is one of 10 lot split applications from the same existing lot that are being proposed concurrently.

Staff is supportive of the proposed lot split as it will clean up an atypical, separated property by placing one of the disconnected portions onto its own lot. Splitting the lot would allow the property to be transferred to a different property owner entity.

## 4. Recommendation

After review and consideration, the Development Department recommends Planning Commission approve the lot split as submitted.
