 3. The pitcher must be behind the pitchers plate to the left or right, within 3 feet. The pitcher cannot move until contact of the ball.

Pitching

- A. Pitching distance is 40 feet.
- B. A maximum of seven pitches shall be presented to each batter. After seven pitches and the batter has not put the ball in play, the batter is out.
 Exception: Extra pitch(es) shall be awarded if the 7th (or greater) pitch results in a foul ball.
- C. There are no walks.
- D. The batter can strike out, swinging at three pitches, prior to the full allotment of seven pitches.
- E. A batted ball hitting the pitching coach shall be ruled dead with the batter/runner put on first base; runners advance only if forced.
- F. The pitching coach shall not coach runners.

Batting

- A. All batters must take a full swing. There is no bunting – Penalty: strike to the batter unless he/she is put out in which case the out stands.
- B. When a batter unintentionally throws a bat, the action will be regulated as followed:
 Warn the player and the other members of the player’s team.

After the warning, (second occurrence) the umpire will declare the ball dead immediately, the batter will be returned to the dugout, and any base runners will return the previous base occupied at the time of the pitch.

No out shall be called on the offending player for this action unless the bat makes contact with an official, player, coach or, leaves the field of play.

- C. All players will bat in a continuous batting order. The batting order will be set on the first game and maintained throughout the regular season. Teams may reset their lineup once for the tournament, but must maintain it throughout. For example, if batter number 6 was the last batter in game #1, then batter number 7 will be the first batter in game #2. Any player arriving late or not present at the game will be skipped over and the original line up will be maintained.
- D. All batters and baserunners must wear a helmet while on the field of play. Face guards and chin straps are optional.

Base Running Rules

A. Orange Safety Base Rule:

A defensive player must touch the white portion of the base to record an out.

The baserunner must touch the orange portion of the base to be considered safe.

EXCEPTION: If a batted ball in the infield is an errant throw and causes the fielder to move to the orange portion of the base, the runner must then proceed to the white portion of the base.

The baserunner will then use the white portion of the base when returning to first base after overrunning it, running on a base hit to the outfield (the player may elect to touch the orange portion here), or to re-tag and advance on a fly ball.

- B. Runners are never required to slide. However, if they elect to slide, it must be a legal slide. Also, runners must avoid excessive contact with the defensive player or will be declared out. This is an umpire's judgment call.
- C. Head-first sliding is not permitted, unless the baserunner is retreating to a previously touched base, i.e., returning on a caught fly ball, returning on a pick-off attempt, etc.
- D. Coaches may not physically assist players in running the bases or fielding.
- E. A courtesy runner is mandatory for the catcher of record once two (2) outs have been recorded.
- F. Batters do not have the right to advance to first on a dropped third strike.
- G. There is no stealing or lead offs.
- H. No infield fly rule.
- I. The umpire shall rule time-out immediately upon recognition of an infield player holding the ball up in the air in the infield, defined as fair or foul territory, i.e. "in the dirt."
An outfielder cannot run with the ball into the infield and attempt to stop play. Doing so results in the play continuing.
- J. If an infielder gains control of the ball, they have a choice of either making a play on an advancing runner or to hold the runners to their base as outlined below (see X) If an infielder attempts to make a play on an advancing runner and loses control of the ball, play continues until control is resumed again and the same rules as outlined in section V and X apply again.
- K. Runners who have already left their base and headed to the next base prior to "time-out" may attempt to earn the next base at their own risk.
