Ms. Houk stated that she and Ms. Kelly discussed how they might be able to help the Task Force navigate to a 12 month report. She shared an outline of the tasks that were listed in the Resolution. Under each, was a list of what the members had done to address each item. Ms. Houk said she felt like helping them to see how their efforts were applied to each task could enable them to have a controllable conversation with outcomes. She if there were any more items to be listed under any of the tasks. She said she felt like the members were feeling pressure to put together a report/presentation to Council, when all they need is a status report.

As the members reviewed the list, it was the consensus of the group that their tasks are not complete. I twas decided to work on their presentation in a small group to share their findings thus far and what they want to accomplish in the next 12 months.

Ms. Houk also suggested that one of their recommendations might be to change the make-up of the Task Force. The members reviewed the Resolution and decided that the make-up and how the appointments are made were fine. They did determine that there needs to be a mechanism of replacing appointees in a timely fashion and will make a recommendation in their report to Council.
